

State Route 802

Williams Gateway Freeway

(Loop 202 to US 60 or SR 79 in Pinal County)

Federal ID No. NH-802-A(AUG)
ADOT Project Nos.: 802 MA 999 H6867 01L (Maricopa County)
and 802 PN 999 H7236 01L (Pinal County)

Federal Highway
Administration

Project Summary

The Arizona Department of Transportation (ADOT), working with the Federal Highway Administration (FHWA), is conducting a study to provide an east-west high-capacity, access controlled transportation facility to serve the projected build-out of eastern Maricopa County and northern Pinal County. Freeway planning to determine potential future corridors and freeway improvements is conducted well in advance of design and construction. Area population growth, future land use, environmental considerations, jurisdictional responsibilities, and other factors are used to determine the need, feasibility and general location of future transportation facility improvements.

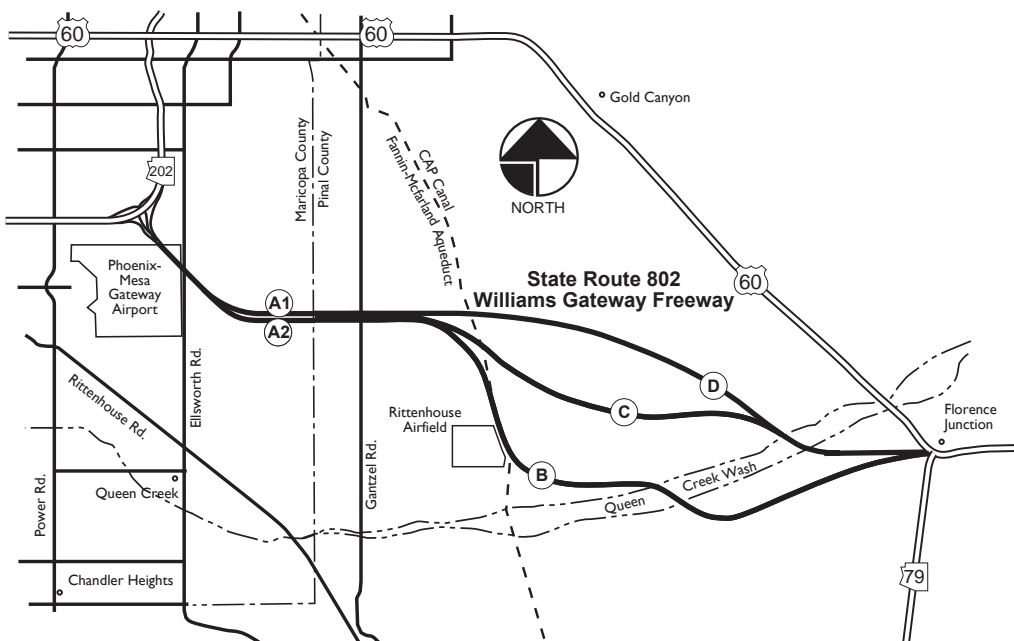

SR 802 conceptually begins in Maricopa County at the Loop 202 (Santan Freeway) and Hawes Road near the Phoenix-Mesa Gateway Airport then heads southeast before heading east into Pinal County to potentially link with US 60 or SR 79. The SR 802 study area lies within or adjacent to the jurisdictional boundaries of the cities of Mesa and Apache Junction, the towns of Queen Creek and Gilbert, and unincorporated portions of Maricopa and Pinal Counties.

The Maricopa County portion of SR 802 (study, design, and eventual construction) is included in the Regional Transportation Plan for Maricopa County and therefore will be funded by the voter approved half-cent sales tax. The portion within Pinal County is currently not funded for construction.

Project Schedule

2010 Completion of Design Concept Report and Environmental Assessment

2016-2020 Design and Construction of Maricopa County portion
